RATE OF EXCHANGE IN CASE OF FOREIGN CURRENCY TRANSACTIONS

For customer transactions in foreign currency (e.g. incoming and outgoing payments), the Wirecard Bank invoices the acquisition and sale of foreign currencies with the current rates usual for the market on the invoicing date. The acquisition and sale of foreign currencies which the Wirecard Bank is unable to carry out in the context of a proper work procedure prior to the invoicing deadline (4:00 p.m. CET), the bank invoices with the respective rate of the next invoicing date.

In case of foreign currency withdrawals via Visa prepaid card or girocard/Maestro Card the currency exchange is made by the respective service provider who carries out the settlement of the payments which were effected with the cards according to the exchange rate determined by this service provider.

All fees for services relating to the Corporate Account can be settled with a corresponding, interest-free credit balance. All Commercial Demand Deposit Account services may be paid for by maintaining sufficient non-interest bearing deposit balances to cover the amount of the charges.
